

## Geosynthetics Interest Group of South Africa

Established 1994

---

### Geocontainers

A geosynthetic container that can be filled with soil or other material.

Geocontainers could either be in the form of smaller Geobags or larger Geo-tubes.

*Image: Geocontainers, Geobags (above) and Geo-tube (below)*

The above definitions are stated within the South African context.

Refer to ISO 10318:2018: Geosynthetics – Terms and definitions for formal definitions.
